Miss Math Arthur was founded by Mandy Arthur in 2017.

Prior to this, she had six years' of experience tutoring Mathematics from Primary to Alevel and Adult learners, Science from GCSE to Alevel Physics, English from Primary to GCSE level. She is a qualified Teacher of English as a Foreign Language and is enthusiastic about bringing real world applications to the learning environment. Over the years' she's had many excellent reviews from previous students, who have gone on to achieve their academic goals in a very short period of time.

At Miss Math Arthur, we are keen to provide a 5-star tutoring service to all our students. We are strong believers in the potential of students. After all, it was a great man who once said *"Education is the most powerful weapon which you can use to change the world"* - Nelson Mandela. Here at Miss Math Arthur, we want to be a part of that positive change in our students' lives.

We tutor students from a range of backgrounds, levels and ability. Where possible, we have been able to help students achieve beyond their expected goal. *"The capacity to learn is a gift; the ability to learn is a skill; the willingness to learn is a choice"* - Brian Herbert. We agree that the 'one size fits all' approach to teaching does not work for every student and therefore we tailor our service and ensure to match the right tutor & teaching style to student for every case.

Primary school students are encouraged to join the One to One or Small Groups programme to ensure that they are fully prepared for 11+ and SATS tests. One to One GCSE Mathematics lessons are in high demand particularly due to the 9-1 Grade curriculum requirements. Progress from these sessions have shown better results than group sessions. During these sessions we aim to equip our students with more than the skill to answer questions presented in textbooks or past exam papers. We use scaffolding and key questioning techniques to ensure thorough understanding of a topic and application skills.

Mandy is amazing!

Patient, enthusiastic and passionate. After weeks of trying to get by using BBC bitesize and numerous text books I finally sought professional help.

Sarah M

Mandy is an amazing tutor. Always very professional, good communication and tailors lesson plans to the need of the student. She helped my son achieve excellent grades in product design and maths and really boosted his confidence and made subjects easy to understand. Thank you for all of your hard work. I would highly recommend Mandy as a tutor.

Tom B

Mandy is an excellent tutor, very well organised, engages with the student

Parent reviews {A level Maths & Physics}

Tutor comments: It's always great to hear from parents of the students you work with. Both Sarah & Tom recieved progress feedback from me and students. The progress made in sessions boosted their confidence. This meant they were a lot less stressed when revising at home.
